

**The carrier of this card suffers from Mb. Osler (HHT)**

**The patient's bleeding does not stop normally due to a defect in the vascular structure caused by the disease.**

Name: \_\_\_\_\_

Personal identification number: \_\_\_\_\_

Treating hospital: \_\_\_\_\_

# Considerations in treatment

- ✓ No medication that increases bleeding sensitivity
- ✓ No blood thinning treatment or dissolution treatment
- ✓ Antibiotic prophylaxis in invasive procedures
- ✓ Procedures to stop nosebleeds can only be performed by a specialist in ear, nose and throat diseases.
- ✓ No sanding/silver nitrate treatment.

**Deviations from the guidelines must be considered on a case-by-case basis, taking the risks/benefits into account. To be confirmed by a specialist.**
